

ASSIGNMENT STATEMENT:

LAB 1

Difficulty: Easy · Covers: Lectures 3–4 · Folder: lab-1/

Before you design your own CV in Assignment 1, practice the raw skeleton: build a semantic HTML5 skeleton (no styling required) for a generic e-commerce homepage — correct <header>, <nav> with at least 4 links, a <main> containing three <section>s (featured products, categories, newsletter signup), and a <footer> with at least three columns of links. Validate your HTML with the [W3C Validator](#) and include a screenshot of a clean validation result in your completion PDF.

Deliverables in lab-1/: index.html and your completion PDF.

Output:

Daraz

[Home](#) [Categories](#) [Featured Products](#) [Contact](#)
